## Device connection fittings and angle valves

### For classic and modern requirements

The angle valve from SCHELL was a real innovation over 65 years ago - today it is a classic and has now been installed over 700,000,000 times worldwide. We are the market leader in angle valve technology, which we are constantly developing in order to be able to offer modern variants, for example the sampling angle valve for reliable testing of drinking water quality. Our portfolio now includes over 200 different designs. They all impress with their high quality of materials and workmanship as well as their long-lasting and reliable functionality.

## Variety of fittings from SCHELL

### Contract fittings for (semi-)public and commercial areas

In (semi-)public and commercial facilities, those responsible are confronted with constantly increasing requirements in the areas of hygiene, efficiency and sustainability. When it comes to planning and modernizing real estate, the challenge is also to reconcile economic efficiency, environmental friendliness and design. SCHELL always offers the right solution: The portfolio of high-quality, resource-saving, attractive and easy-to-install commercial fittings covers every installation situation. Contactless, electronic fittings provide the best support in protecting user health.

## Regulating Angle Valves

### Comfort Angle Valve

Regulating angle valve with COMFORT handle. Dezincification-resistant DR-brass.

- Comfort handle
- Long-push rod
- Regulating
- Push rosette Ø54mm
- Flow class A
- Noise Class I (Lowest noise in class)
- Test Mark: P-IX 212/IA
- DR Brass
- Brass ensures drinking water hygiene
- Double O-ring safety
